402-476-7822 in
Lincoln, or e-mail
swilson@nebtrucking.com.

topic:

an update on

Blue Skyways and the Smartway Program

Going green isn't just smart for the environment,
it can also be good for your bottom line.

Are you interested in saving your company
some money? Reducing fuel consumption and
air emissions? Alternative fuels and renewable
energy technologies for land, air, water and
rail transportation?

Attend the November Nebraska Logistics
Council meeting for a general overview of Blue
Skyways Collaborative and the Smartway Pro-
gram. You'll learn best practices and technolo-
gies that can reduce fuel consumption, air pollu-
tion and green house gas emissions while saving
money. You'll also gain insight into "greening
the supply chain" efforts in the region.

*Our speaker, Alan Banwart, is an Environmental
Protection Specialist at the EPA in Kansas City. He
works in the Air Division in the Air Planning and
Development Branch where his primary focus is on
agriculture, mobile source and fuel issues. Banwart
is the non-road sector lead in the Blue Skyways Col-
laborative. He is also a co-leader on the Region 7
Ag Team and a member of the Biofuels Team.*

Reservations not cancelled by noon **Friday** prior to the event
will be billed. You also have the option to send someone in
your place if you're unable to attend.
