*topic:*

*issues related to air, ocean,  
rail and truck*

## **Cargo Security**

Our transportation network is vital to U.S. Commerce and all modes of transportation are being closely scrutinized for safety and security from terroristic threat. How do these programs impact shippers of materials, the carriers that provide the service, and your ultimate timely delivery? What are the issues that face businesses on a local and international level?

From existing security measures to programs soon to be implemented, please join us to hear Transportation Security Inspector Al Klukowski provide the latest updates from the Transportation Security Administration.

*Klukowski has been an aviation security professional for more than a decade and is currently assigned as a Transportation Security Inspector–Cargo for the Transportation Security Administration, Department of Homeland Security at Eppley Airfield, Omaha.*

*During his extensive career, he has participated in national special security events, and conducted assessments in international airports in Europe, Africa, the Middle East, Southwest, and Southeast and Northern Asia.*

Reservations not cancelled by noon **Friday** prior to the event will be billed. You also have the option to send someone in your place if you're unable to attend.
