Apples, apple juice, and apple products, as well as other misc. fruits assumed to equal the previous year; current year production data are not released until July or later.

Other = Sugar and tropical products, minor oilseeds, essential oils, beverages other than juice, nursery and greenhouse, wine, and misc. vegetable products.

For production, NASS does not print some States for each commodity to avoid disclosing individual operations. Consequently there are Other States included in each total which must be accounted for in trade.
