Planning and Infrastructure Subcommittee

Members present: Chuck Sigerson, Chair
 Jack Stannard, Vice Chair
 Sally McGuire, Secretary
 W Cecil Steward, Joslyn Castle Institute
 Steve Masters, City of Lincoln
 Brenda Gunn, City of LaVista
 Steve Miller, Olssen Associates
 Steve Oltman, Olssen Associates
 Marvin Krout, City of Lincoln

Steve Masters, PE, Public Utilities Administrator, from the city of Lincoln talked about Lincoln's water service. Questions were asked about the well field in Ashland and how the city determines who would receive Lincoln water.

A representative from Olsen Engineering Firm went over a number of examples of commercial developments along the I-80 corridor. Some of the developments were good and some were not very good.

The committee felt it was necessary to for the Commission to ask the State Legislature to put together a plan to assist communities in providing infrastructure to the I 80 corridors or a plan to provide these services.

The Chair will provide feedback to the full Commission.

Sally McGuire
Secretary
